SUMMARY

Computer Science graduate with hands-on experience developing full-stack web applications, ERP systems, and AI-powered solutions. Skilled in React, Node.js, MySQL, and RESTful APIs with experience building scalable management platforms and modern software applications.

EDUCATION

Sir Chhotu Ram Institute of Engineering and Technology, CCSU <i>Bachelor of Technology in Computer Science (B.Tech) CGPA: 8.6/10</i>	Meerut, India Oct 2022 – May 2026
SMT SDLCS Vidya Mandir Se. Sec. School <i>Class XII (CBSE) - 96%</i>	Khurja, India 2020 – 2021
SMT SDLCS Vidya Mandir Se. Sec. School <i>Class X (CBSE) - 94%</i>	Khurja, India 2018 – 2019

PROJECTS

CampusSync ERP – College Management System | *React, Node.js, Express.js, Prisma, MySQL*

- Developed a full-stack College ERP system with Role-Based Access Control (RBAC) for Administrators, Faculty, and Students, streamlining academic and administrative operations.
- Designed and implemented 7+ ERP modules including Student Management, Faculty Management, Attendance Tracking, Timetable Scheduling, Fee Management, and Document Management.
- Built scalable RESTful APIs, database-driven workflows, and JWT-based authentication using Node.js, Express.js, Prisma ORM, and MySQL.
- Developed responsive dashboards with analytics, search, filtering, and reporting features using React and Tailwind CSS.

JARVIS AI – Intelligent Voice Automation System | *Python, Flask, Groq LLMs, SSE*

- Developed a real-time AI desktop assistant with wake word detection, voice command processing, and conversational AI interaction
- Architected a multi-threaded Flask backend integrating Groq Llama models, speech recognition, text-to-speech, and screen-awareness capabilities
- Implemented browser automation, application control, system monitoring, and dynamic command execution
- Built an interactive neural-interface dashboard with Three.js and Server-Sent Events (SSE) for live state synchronization and real-time UI updates
- Engineered interruptible voice response handling, sleep/wake modes, and low-latency command execution for seamless human-computer interaction

TECHNICAL SKILLS

Languages: Python, JavaScript, SQL, C
Frontend: React, Tailwind CSS, HTML, CSS
Backend: Node.js, Express.js, FastAPI, Django, JWT Authentication
Databases & ORM: MySQL, MongoDB Atlas, Prisma ORM
Tools: Git, GitHub, Vercel
AI Technologies: Groq LLMs, Speech Recognition, Three.js
Libraries: Pandas, NumPy, Matplotlib

RELEVANT COURSEWORK

Data Structures and Algorithms, Database Management Systems, Operating Systems, Computer Networks, Object-Oriented Programming
