

Rishabh Bhardwaj

Software Developer | Full Stack & AI/ML

☎ +91 8218044739 | ✉ officialrishabhbhardwaj@gmail.com | 🔗 LinkedIn | 🐙 GitHub | 🌐 Portfolio

Summary

Computer Science graduate (2026) building production-ready full-stack and AI applications. Proficient in React, Node.js, MySQL, and Python, with a strong ability to design scalable, multi-role systems and integrate real-time AI services end-to-end.

Experience

Software Development Intern (Full Stack & AI/ML)

Jul 2026 – Present

EvolveSpark Services and Solutions (OPC) Pvt. Ltd.

Remote

- Developed a full-stack ERP application using Next.js, React, and Node.js, implementing 10+ academic and administrative modules to streamline institutional workflows.
- Implemented JWT authentication and role-based access control across 3 user roles, integrating REST APIs with scalable database architecture.

Projects

CampusSync ERP — College Management System

[Live Demo](#)

React, Node.js, Express.js, Prisma, MySQL, JWT, Tailwind CSS

- Architected a full-stack college ERP with RBAC for 3 user roles—administrators, faculty, and students—across core institutional workflows.
- Engineered 7 independent ERP modules for student management, attendance, timetables, fees, documents, and other academic workflows.
- Implemented JWT authentication and role-based authorization with Prisma and MySQL to secure academic and financial data across 7+ modules.
- Built responsive React dashboards with live search, advanced filtering, and reporting for efficient data management and analysis.

JARVIS AI — Always-On Voice Assistant

[GitHub](#)

Python, Flask, Groq LLMs (Llama 3.3), Three.js, SSE

- Built an always-on AI assistant with 10 wake-word variants, enabling hands-free voice activation and natural-language command processing.
- Architected a multi-threaded Flask backend with 7 API endpoints, integrating Groq LLMs, speech recognition, TTS, and SSE for real-time interaction.
- Integrated 9 smart website services including YouTube, Google, GitHub, Reddit, Instagram, and Netflix for voice-driven browsing and search.
- Automated 8 Windows applications and added screen awareness, entity lookup, AI file saving, system monitoring, and hot-restart capabilities.

Technical Skills

- **Languages:** Python, JavaScript, SQL, C
- **Frontend:** React, Tailwind CSS, HTML, CSS
- **Backend:** Node.js, Express.js, FastAPI, JWT Authentication
- **Databases & ORM:** MySQL, MongoDB Atlas, Prisma ORM
- **AI & Real-Time Systems:** Groq LLMs, Speech Recognition, Server-Sent Events (SSE), Three.js
- **Tools & Deployment:** Git, GitHub, Vercel

Education

Sir Chhotu Ram Institute of Engineering and Technology, CCSU Meerut

Oct 2022 – May 2026

B.Tech, Computer Science and Engineering

CGPA: 8.6/10

SMT SDLCS Vidya Mandir Sr. Sec. School, Khurja

2020 – 2021

Class XII (CBSE)
